

2007 Financial Aid Training - FA201

Have you ever found yourself lost in the NSLDS jungle? Would basic survival techniques and a grasp on the most recent changes have helped?

Would you like to know how to plot a course for your students and your office to help prevent identity theft?

Caught in an audit and wondering if your office will live to aid another day? Can you identify the 10 most common audit findings and how to avoid them?

Avoid office feuds over these uncharted changes and join us for our 2007 Financial Aid Training. We will explore the answers to these questions and more while we maneuver through the new NSLDS landscape, the most common audit findings, and ways to protect you and your students from identity theft.

And remember – as the famous Italian astronomer Galileo once said, “All truths are easy to understand once they are discovered; the point is to discover them.”
